Genuine Epson T3200-U3-S Print Heads

Equipped with built-in heating and precision core technology for unparalleled color performance and smooth ink flow.

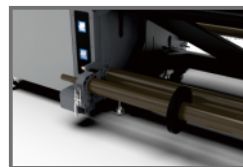

Enhanced Construction

9mm thick platform prevents deformation during transportation, reinforced steel frame and steel beam ensures highly stable printing.

EnTek Recirculation Solution!

Japanese-component GZ negative pressure recirculation ensures stable ink delivery, minimizes maintenance, and maximizes T3200 head performance.

Multi-Purpose Media Handle System

New laser-controlled tension bar and winding roller allow wrinkle-free media feeding and taking up; equipped with both air shaft and dual carrier rollers feeding.
